

↳ Background

With 2,500 acres of legendary inbounds terrain, a 4,139' vertical rise, 459" of average snowfall each winter, and unparalleled backcountry access, Jackson Hole offers a truly unique winter experience.

Two distinct mountains in the heart of the Tetons - Rendezvous and Apres Vous - make up Jackson Hole Mountain Resort and have been home to incredible skiing and snowboarding for the past 40 years.

↳ NetSupport Solution

"Jackson Hole Mountain Resort operates a network of some 250 computers spread out over 3,600 acres and over 4,000 vertical feet of mountainous terrain in the Teton Mountains of Wyoming.

In addition there are retail, warehouse and lodging operations in remote locations around the Jackson Hole valley.

JHMR customers expect any and all of staff to be able to give them current information on conditions on the mountain, lift status and weather.

NetSupport Notify has become an indispensable tool to help serve that need."
